Find Cheapest Gas

# Energizing civic engagement

The only DIY app management system.  
5 Simple steps to get started.

# Engaged citizens...\*

- Are **50%** more likely to vote
- Are more likely to **invest and volunteer** in their communities
- Make for **lower unemployment**
- Can be your biggest **advocates!**

# The communication gap

## #Residents

*It's impossible to get in touch with the right people in my local government*

*I never get updates on service requests, city happenings or alerts*

## #InsideGovernment

*Processing requests is tedious*

*It's difficult to report our work and follow-up with residents with timely information*

# PublicStuff can help you...

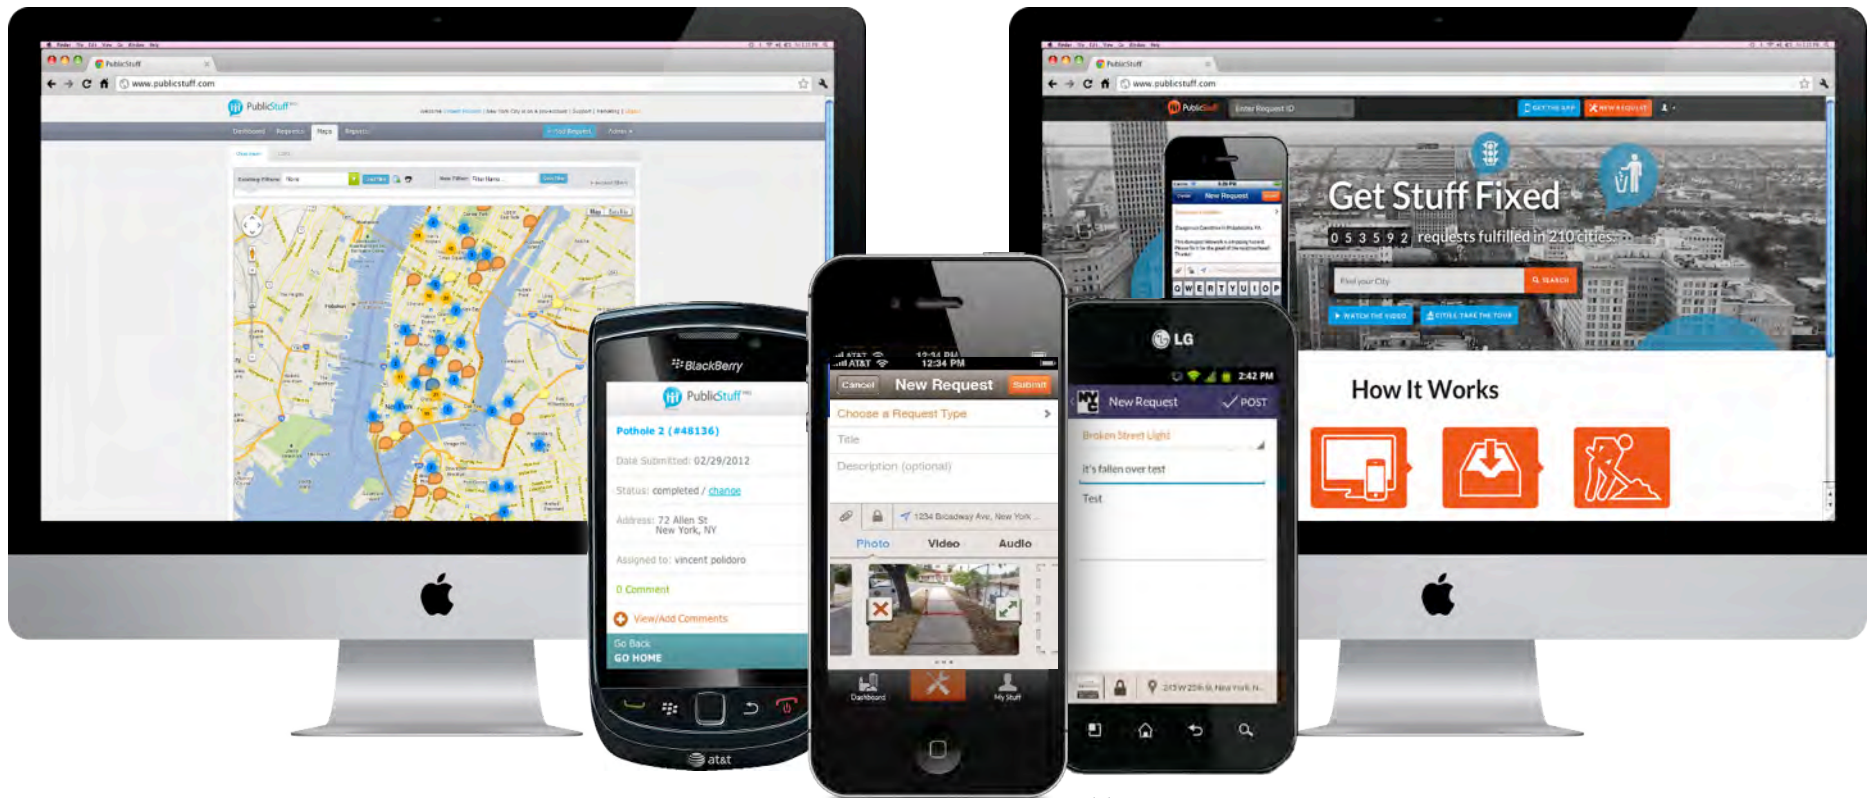

**Spend less time handling service requests  
and more time helping your community**

**Seamlessly communicate progress and  
information to citizens**

**Help citizens send service requests to the  
right people**

# Community Portal

BlackBerry iPhone ANDROID

SMS Text | Toll Free Number | Web | Windows Mobile

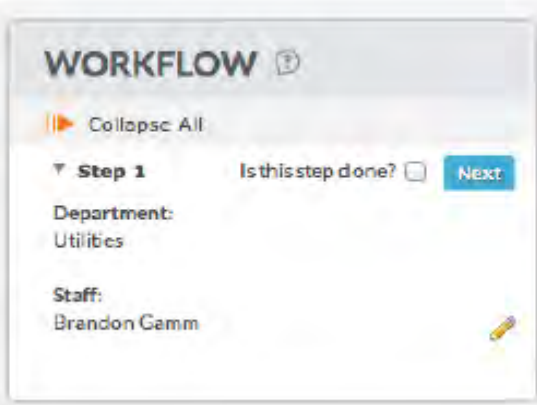

# The result? It really works!

*Before and After*

# Government Portal

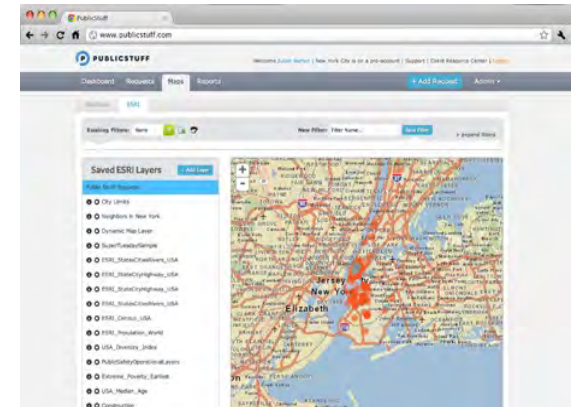

## Workflow Tools

- Notify citizens on request status
- Delegate tasks to your staff
- Assign workflow steps
- Connect with citizens to collect additional details on requests

## Customized Branding

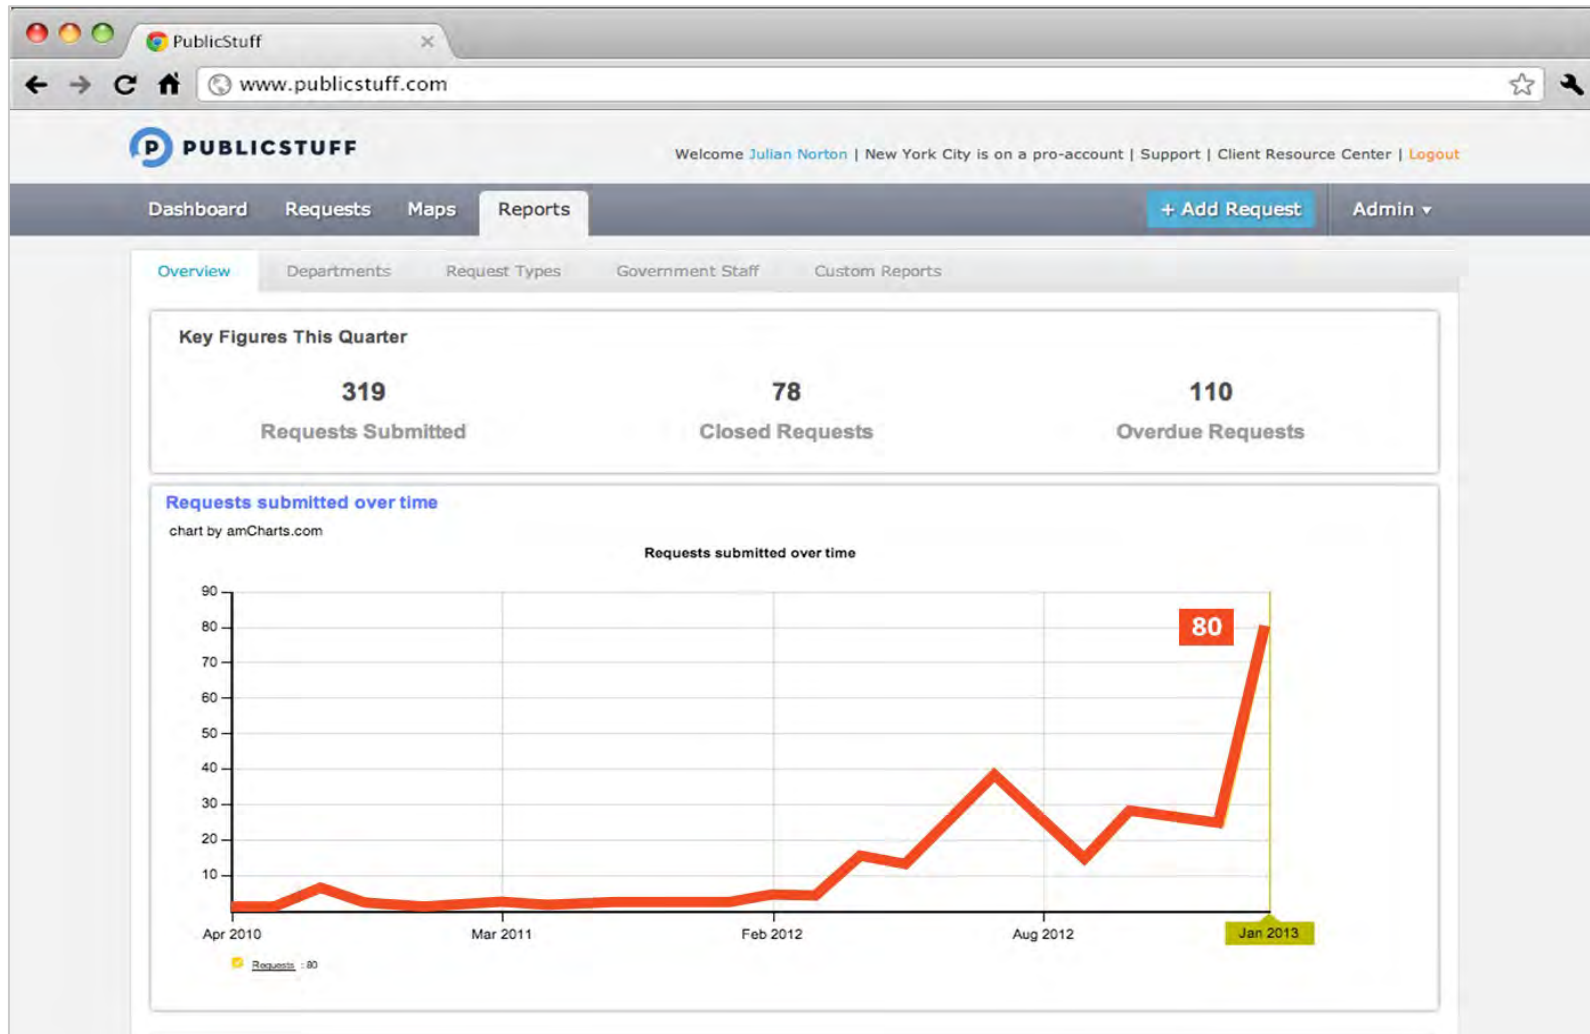

- Fully branded mobile apps for your city
- Give residents the information they need about your city
- Create portals for your city news and staff bios

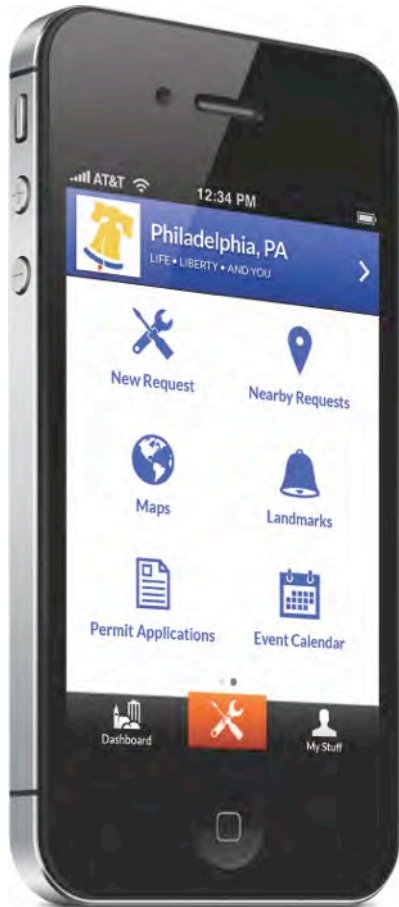

## Mapping & Analytics

- ESRI integration with GIS Mapping
- Import and sync multiple mapping layers for an informative view of requests
- Custom reports allow for data driven decision making

# Data driven decision-making

# Just ask Philly...

## Philadelphia, PA Population: 1.5 million

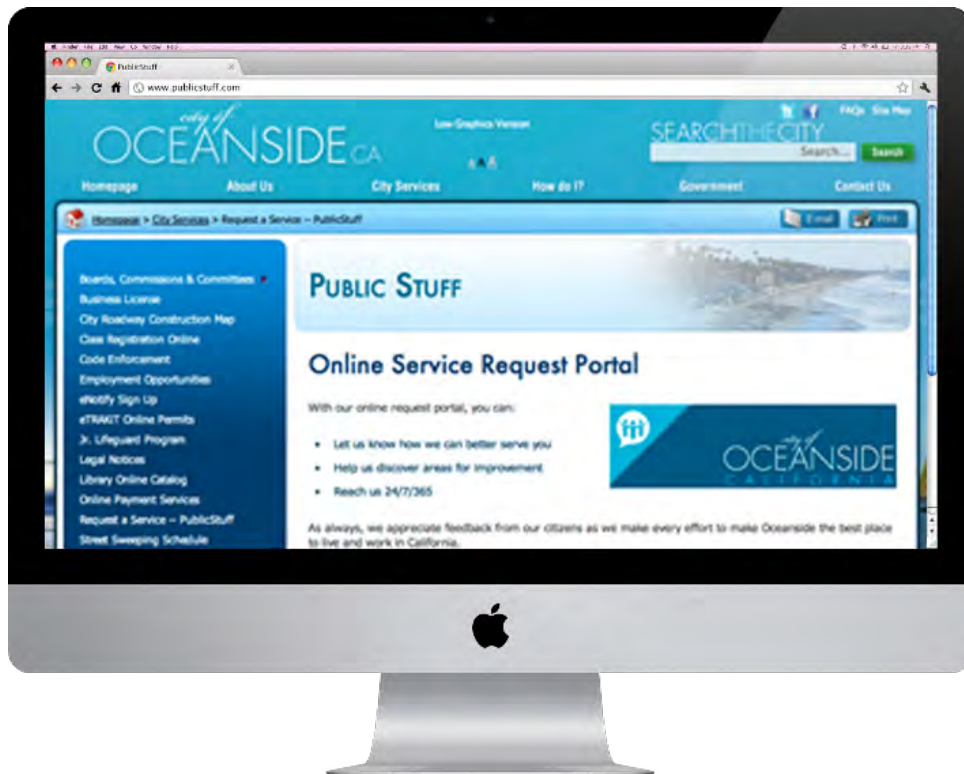

“ This app will bring city services to citizens’ fingertips and will continue the transformation of government into a nimble customer service organization.

—Mayor Nutter

# 91%

Service requests closed per month\*

# Oh, and Oceanside!

**Oceanside, CA**  
Population: 170,000

“Based on the costs we found nothing in the same category which even came close to providing the same capabilities.

— IT Director

# \$128K

Annual Savings\*

# Plano's not far behind

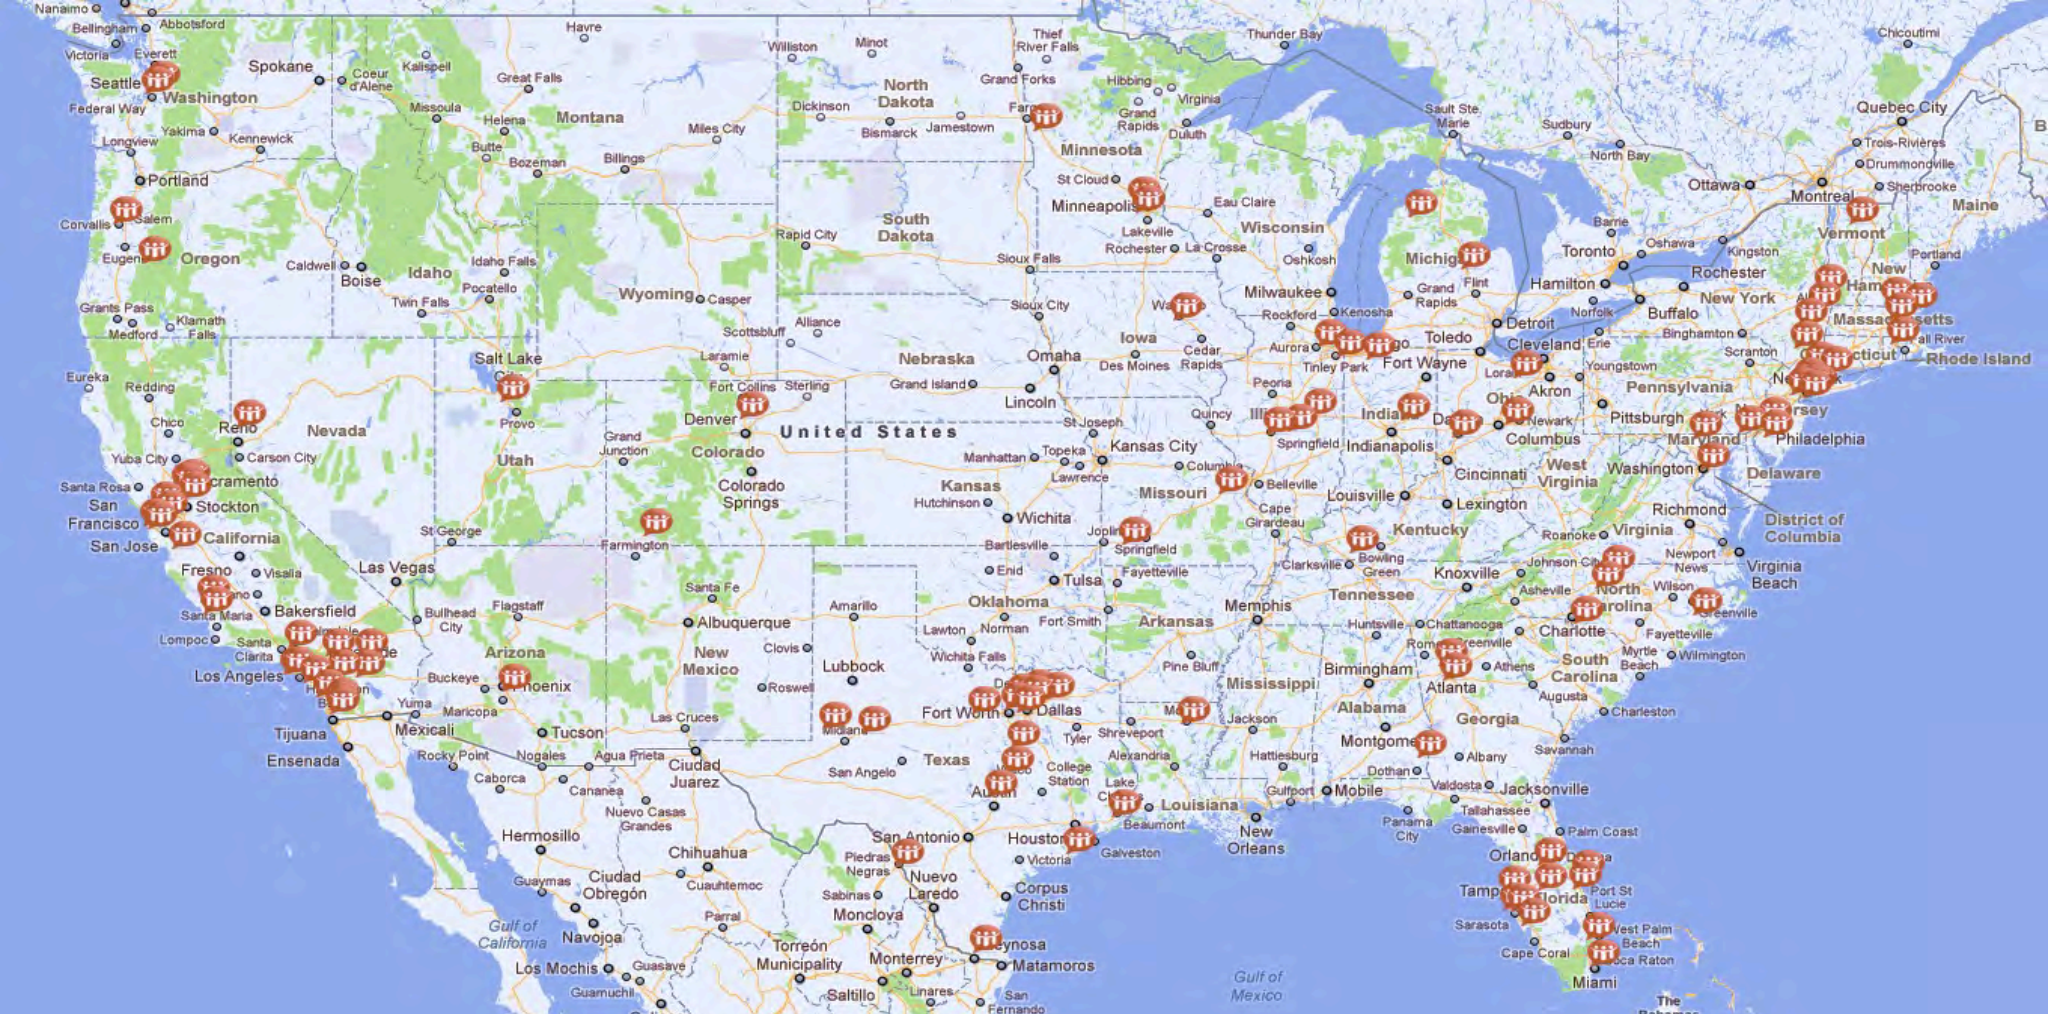

**Plano, TX**  
Population: 270,000

“ This software has elevated our service and response capabilities to our citizens as well as the ability to manage our team and crews more efficiently.

—IT Director

# 51%

Residents engage with city staff through request submission\*

# 200+ Cities Onboard

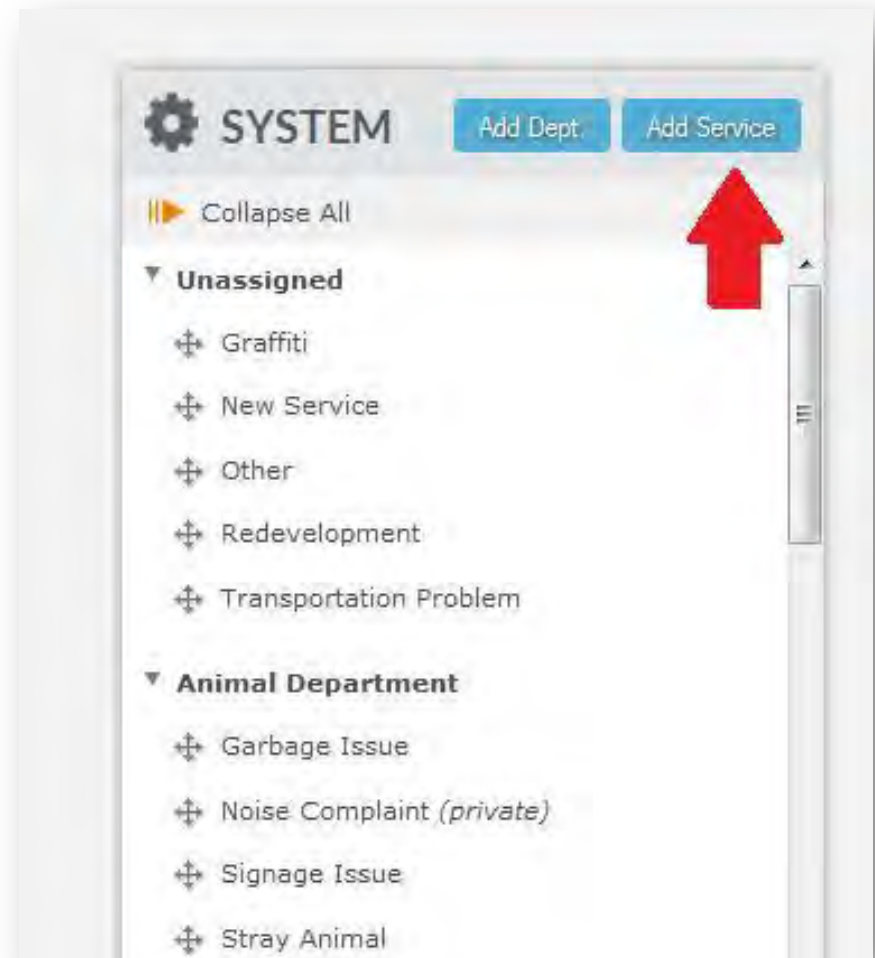

# Step 1: Brand your App

- Choose a city logo icon
- Select color scheme
- Name your app!
  - Fix It North Miami Beach
  - Access Fontana
  - Dayton Delivers
  - Ask Elk Grove

# Step 2: Create Request Types

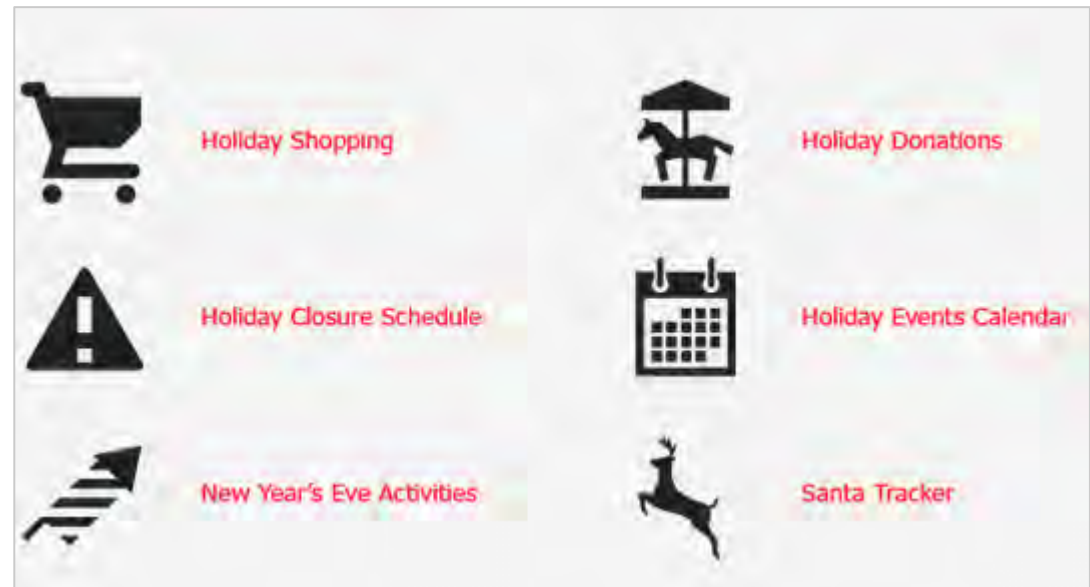

- Enter in request types and polling questions
- Enter a short description
  - Ex. “Vehicle must be parked on a city street with expired registration, appears to be undriveable, and/or has not been moved for one week”
- Enter a confirmation message
  - “Thank you for submission. The estimated response time to this issue is 7 business days.”

# Step 3: Create Widgets

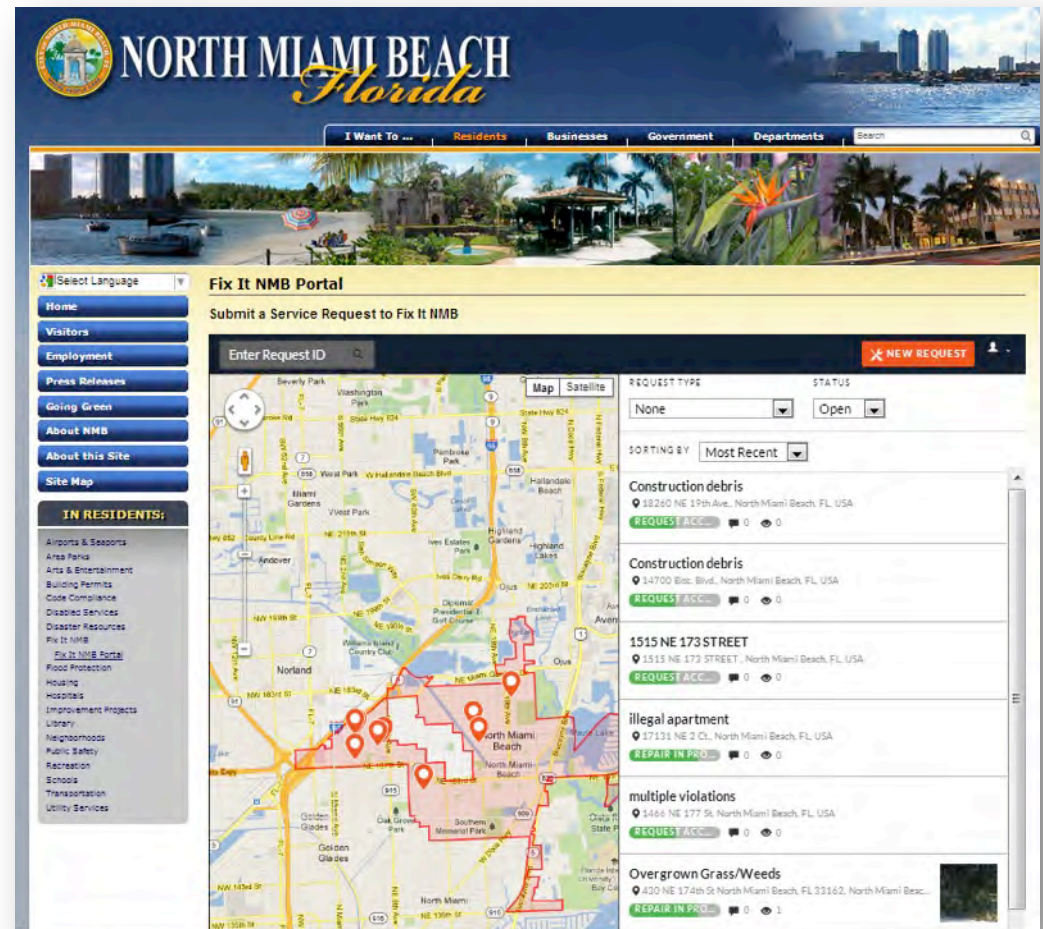

- Create **ANY** customized widget of your choosing
- Popular widgets include:
  - Business Promotions
  - City Holiday events
  - Bike Paths
  - Town Hall Meeting Info
  - Local Weather / News
  - Utilities / Bill Payment
  - Census Data

## 2012 Holiday Widget ideas

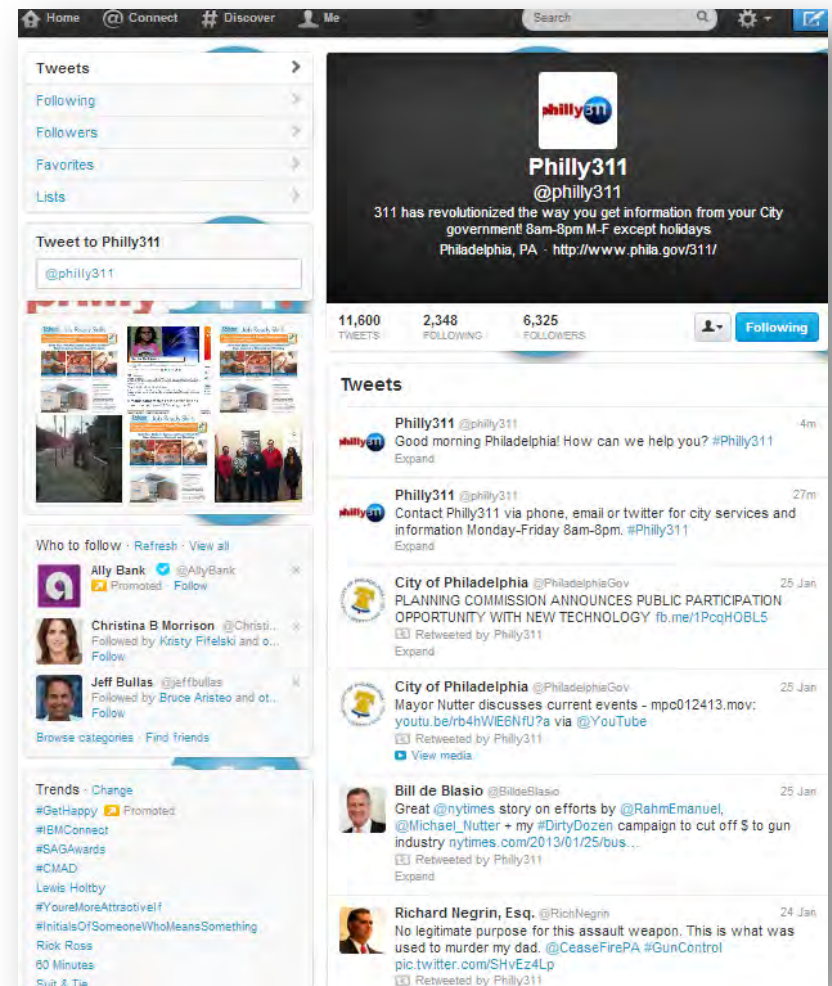

# Step 4: Embed into website

- Embed the system into your website in less than 5 minutes
  - Request form
  - List of issues
  - Live map
  - Mobile app download links

# Step 5: Publicize your App

- Send out press release
- Identify potential partners to utilize your system
  - Downtown agencies, Nonprofit groups, community groups, local schools, business associations.
- Social media
  - Create Twitter, Facebook and Pinterest accounts
  - Collaborate with local bloggers to create buzz

# What are you waiting for?

Let's get started!

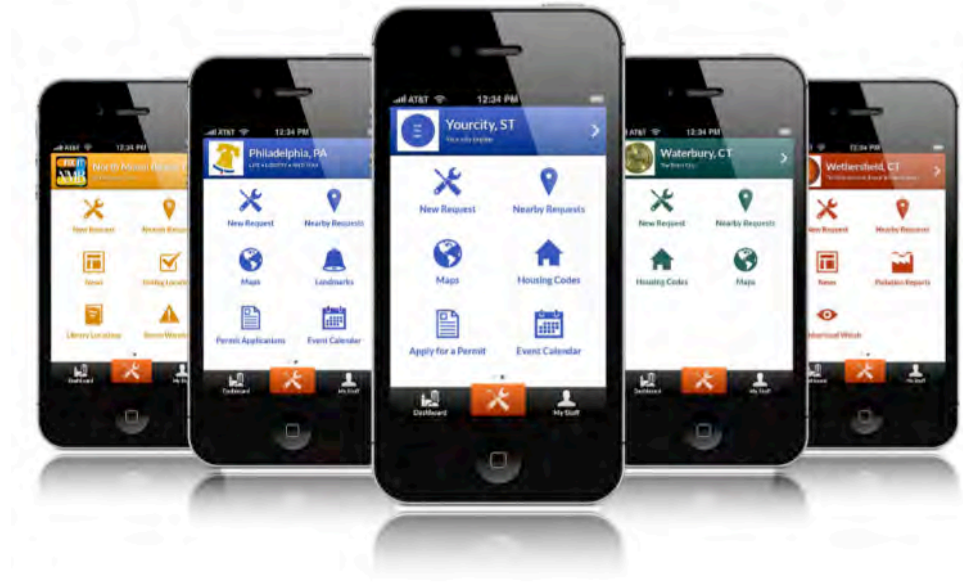

## 1. Download the PublicStuff App

- Search for your city

## 2. Adopt your city

- [team@publicstuff.com](mailto:team@publicstuff.com)

## 3. Launch internally or publicly
