Census 2020: What Cities Need to Know

Registration now open for the Census 2020 Informational Webinar.

.....

Every 10 years, the federal government undertakes a census of the U.S. population to determine federal representation, redraw federal and state legislative districts and allocate federal funding to states and local governments.

The next federal census will begin on April 1, 2020, and what do California cities need to know to be prepared?

Please join the League and senior representatives from California Complete Count and the California Government Operations Agency (GovOps) to learn about the 2020 Census process, and how cities can play an incredibly important role in helping the state prepare for and execute a complete census count.
