

**Mayors and Council Members
Leadership Academy Torch Program**

Mayors and Council Members Leadership Academy Torch Program

The League of California Cities® Mayors and Council Members Department honors the hard work and dedication of its peers through the Torch Program.

Each year elected officials from throughout California earn recognition as they progress upward through three sequential levels of achievement. These are:

- Level I — Leadership;
- Level II — Advanced Leadership; and
- Level III — Leadership in Action.

Program Details

The Torch Program is a recognition program for mayors and council members who are seeking continuing education and League engagement to enhance their own knowledge and leadership skills in order to better serve the public. The program is a voluntary program, achievements are self-reported.

Recognition

Mayors and Council Members who reach *Advanced Leadership* and *Leadership in Action* levels are honored at the League's Annual Conference with a certificate and torch lapel pin. The League can also arrange for recognition at your own city council meeting along with a news release.

Lapel pin levels I, II, and III
