

Planning for Aggregate Sustainability

Conor McGee
County of San Diego
Planning & Development Services

How Can My Jurisdiction Use Aggregate Sustainability Reports?

- Project Specific CEQA analysis for discretionary projects
- Impacts to existing or future resources analyzed as part of a new project
- Mitigation for Impacts at a Project Level, not regional level

General Plan Implications

- ▶ County of San Diego General Plan Conservation Element
- ▶ Strives to maintain availability of identified mineral resources
- ▶ Ties to Mobility Element and Housing Element

Potential Future Uses of Aggregate Mapping

- ▶ County General Plan envisions regional level program
- ▶ Mining Overlay or Compatibility Designator
- ▶ Identification of Mineral Resources
- ▶ Mitigation Program

Next Steps

- ▶ Continual operational updates based on California Geological Society publications
- ▶ General Plan Implementation
- ▶ Project specific analysis
