For all other questions, please contact Bismarck Obando at [obando@cacities.org](mailto:obando@cacities.org).

## Energy Resiliency and Independence for Rural Cities

Uniquely vulnerable to the effects of disasters like wild fires, earthquakes and flooding, finding affordable solutions to sustainable power that will support critical infrastructure is particularly daunting for rural cities.

Learn from field experts and rural city colleagues how to address these issues and acquire long term, sustainable and emergency energy solutions for your city.

Grants, zero-interest, and low-interest funding available to small Disadvantaged Communities and Severely Disadvantaged Communities will be discussed.

---

### Moderator

Mark Kindelberger, Regional Program Manager, Schneider Electric
